DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on June 28, 2004 disclaiming the terminal portion of any patent granted on this application has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Amendment

2. In response to the Office Action mailed April 13, 2004, applicant submitted an amendment on June 28, 2004, in which the applicant argued the art rejection and requested reconsideration. Applicant's arguments, submitted on pages 11-15 of the amendment, have overcome the rejection, which puts the claims in condition for allowance.

Allowable Subject Matter

3. **Claims 1, 3, 5-29, 31 and 33-38** are allowed.

The following is a statement of reasons for allowance:

As for independent **claims 1 and 29**, they recite a method and system for conditioning a speech signal in preparation for coding of the speech signals comprising accumulating speech signals, evaluating the accumulated samples, determining a slope and selecting a one of a first and a second filter, wherein the selecting step selects the first filter if the determining step determines that the slope of the representative sample

of the speech signal conforms to the defined characteristic slope, and wherein the selecting step selects the second filter if the determining step determines that the slope of the representative sample of the speech signal is generally flat, in that particular order. Prior art such as Kroon and Kurdziel show similar methods and systems, but fail to neither teach nor reasonably suggest the sequence of steps wherein the segmentation occurs after the speech is pre-emphasized and does not teach selecting a first and second filter depending on the determining step, in which claims 1 and 29 has been amended for clarification.

Dependent claims 3, 5-28, 31 and 33-38 are allowed because they further limit their parent claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
